This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE Commissariot of Orkney and Shetland comprised the counties of the same. The Record, of which the greater part is now amissing, probably in the hands of private individuals, commences in 1661 and ends, in so far as Shetland is concerned, in 1649, and as regards Orkney in 1684. The Testaments of the different islands are recorded in groups, according as the Commissary perambulated the same, holding his courts throughout the different parishes. For the sake of convenience, those of Shetland have been arranged in a separate Index from Orkney. The lists show in a marked manner how, by the seventeenth century, names in Orkney had departed from the Norwegian system of patronymics in favour of those of places, while in Shetland the practice, which can hardly even yet be said to be extinct, of calling the son from his father's christian name, was in full force, thus the son of William Magnusson of Buness becomes Henry Williamson of Buness, and in his turn his son is Magnus Henryson or Henderson.

The Register of Testaments is contained in eleven volumes, and covers the following periods:—

1.	1611	to	12th March 1612 and
	30th December 1618	to	26th February 1628.
2.	21st August 1612	to	4th October 1615.
3.	7th March 1628	to	7th July 1638.
4.	20th July 1638	to	22nd August 1662.
5.	7th May 1648	to	28th August 1649.
6.	28th June 1656	to	20th August 1659.
7.	2nd December 1663	to	20th November 1666 and
	2nd December 1663	to	18th December 1666.
8.	20th November 1666	to	22nd June 1671.
9.	11th January 1681	to	6th August 1684.
10.	15th April 1663	to	2nd December 1663.
11.	1679		1683.

Volume ten, which was transmitted to the Register House in 1886, by the representatives of the late Peter Sinclair Heddell, writer, Kirkwall, contains, besides Testaments, seventeen pages of notarial instruments 1657-1659, and a disposition by Lady Halcro, dated May 1667.

Volume eleven transmitted in 1902, by Mr. George Traill of Holland, contains only an abstract of the Inventory.

In addition to the above Register, there is a fragment containing Decreets, 29th March 1648 to 24th November 1659, and 25th November 1663 to 29th July 1668.
